Security and Technology Solutions

# We Provide Technological Solutions and Engineering Practices for Your Safety

As Tise Teknoloji, we provide the best engineering applications to include the top-end security practices in our client's lives and develop projects that fit the best to their needs.

# We are Working with the Strength We Get from Our Past to Write New Success Stories.

We are proud to develop special projects for our clients, create and apply the most suitable engineering solutions for their needs since 2004 when we step in the world of technology.

“All-round  
**experience.**”

From small to medium scale businesses to banks, chain stores to industrial facilities and to public institutions, we get important references from a wide range of client groups by perfectly achieving many projects.

# We Are Here to Help You.

## Needs Analysis

Tise team is enough to make you feel comfortable and safe and sound. We offer technologies and solutions best for you by analyzing your needs.

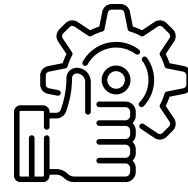

## Project Management

We work meticulously on feasibility, project design, application, and commissioning with our professional and disciplined management approach.

## Technology Consultancy

We use the most suitable technology in the solutions we develop for you without sticking any brand or classic product portfolios.

## After Sales Services

We will always be there for you even after the project application with technical services, support, and consultancy services to perpetuate your satisfaction.

## We Believe the Power of Our Teams.

We believe that to ensure customer satisfaction one must have a team that will always provide the most suitable service. As Tise Teknoloji, we have a powerful staff that consists of experts in their fields, trained, and adopted customer-oriented work as a principle.

# Electronic Security Solutions

We provide the best solution in every scale with the electronic security solutions that can provide the security needs of places and uses the latest technologies. We design our electronic security solutions that minimize breaches and prevent dangers just for you.

- 🎯 Security Camera Solutions
- 🎯 Fire Detection and Extinction Solutions
- 🎯 Burglar Alarm Solutions

# Access Control and Turnstile Solutions

Meet Access Control, Staff Attendance Check and Turnstile Systems designed just for you to control entrance and exits, prevent unauthorized persons, and control staff attendance. Control your place with products that can meet your different needs.

- 🎯 Face – Iris – Palm – Vein Recognition, Fingerprint, Card Entrance Systems
- 🎯 Turnstile and X-Ray Systems that can Meet Various Needs
- 🎯 Entrance Control and Personnel Attendance Control Software
- 🎯 Advanced Reporting and Control Technologies

# Barrier and Plate Recognition Solutions

We offer the solution you need with the most accurate products to monitor the car and pedestrian entrance and exit and prevent preaches in various spaces from malls to gated communities, public places to university campuses.

- 🎯 Powerful Product Portfolio that can Meet Various Needs
- 🎯 Swing Barrier, Rising Bollard, and Roadblocker Systems
- 🎯 Advanced Plate Recognition Solutions

# Road Blocker Solutions

We use the most quality products that passed the quality and stability tests and conforms to the international standards in our road blocker and control systems that offer an advanced and powerful security solution in car entrance points.

- 🎯 Conforms to the International Standards and Certified
- 🎯 Durable Steel Structure and Quality Hydraulic System
- 🎯 Full-Compatible with All Entrance Control Systems
- 🎯 Proper for Every Need with Wide Installation Options

# Rising Bollard Solutions

We provide a technological and practical solution to car entrance control with our rising bollard systems used to regulate the traffic flow, authorize entrances, monitor roads, and entrance/exit points.

- 🎯 Quality Stainless Steel Outer Surface
- 🎯 Fast and Durable Control System
- 🎯 Immediate Forestalling During Emergencies
- 🎯 LED Lighting and Security Photocell

# Under Vehicle Search Solutions

In high-level security places, you provide a safer entrance control with under vehicle search systems used in car control points.

- 🎯 Smart Digital Scanning in High Definition
- 🎯 Special Structure Resistant for All Weather Conditions
- 🎯 Full Imaging Feature in Wide Angle
- 🎯 High Technology and Advanced Features

# Parking Guidance and Charging Solutions

Let us design special parking lots just for you that will make you manage your parking spaces easily, allows you to detect the authorized vehicles, makes the parking lot safer, and makes the charging easy in necessary places.

- 🎯 Accurate Solutions for the Needs of Projects of Every Scale
- 🎯 Advanced Management and Reporting Opportunity
- 🎯 Card Entrance and Ticketed Parking Lot Charging Systems
- 🎯 Parking Lot Vacant-Full Place Detection and Guidance Systems

# Intelligent Transportation, Traffic and Tunnel Management Solutions

We offer turnkey management solutions that have meticulously realized system design, project application, test, and commissioning processes for highways, tunnels, railways, and connected transport systems.

- 🎯 Professional Systems that are Developed for the Needs
- 🎯 Solutions Created with Products and Brands that are Internationally Certified
- 🎯 Satisfaction-Oriented Approach in Project Consultancy and After Sales Services
- 🎯 High-Quality Service with Expert, Trained and Certified Technical Staff

# Intelligent Transportation, Traffic and Tunnel Management Solutions

We offer a wide range of solutions developed especially for transportation, traffic and tunnel management projects and meets the requirements.

🎯 Security    🎯 Inspection    🎯 Information    🎯 Automation

- Security Camera Systems
- Vehicle Classification
- Tunnel Radio Systems
- Traffic Signalization
- VTS, VMS (Information) Systems
- Fiber Optic Communications
- Passenger Information
- Plate Recognition Systems
- Emergency Support Phone (SOS)
- Meteorology Station
- Lighting Automation
- SCADA Software
- Automation Software
- Fire Alarm Systems
- Fire Extinction Systems
- Emergency Announcement and Voice Systems

# Smart Cities Solutions

We prefer solutions where technology meets life to make citizens safe and well in the city.

- 🎯 City and Environment Security Systems
- 🎯 Safe Park and Garden Systems
- 🎯 Mass Transport Security and Inspection Systems
- 🎯 Electronic Traffic Inspection Systems

# Disaster Training Center Solutions

Centers to be built to prepare the community and especially the youth to a possible disaster by informing them.

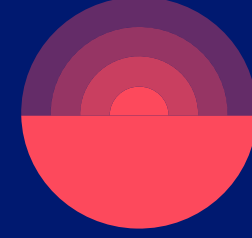

- 🎯 Disaster Training Parks
- 🎯 Cooperation with Schools
- 🎯 Earthquake Simulations
- 🎯 Fire Simulations

# Health and Home Care Solutions

We help you to provide a better life for especially elders and people in need of care who live alone with special solutions developed just for them.

- 🎯 Elder Care Automation Software
- 🎯 Social Alarm Solutions
- 🎯 Health Alarm Solutions
- 🎯 Home Alarm Solutions
